### [The ERIVAN Sales - Bibliophile Edition](#)

Heinrich Köhler, a part of the Global Philatelic Network (GPN) will be publishing "The ERIVAN Sales – Bibliophile Editions" as a series of 29 separate publications to be released this summer. Although the entire collection is very desirable, of special interest to Civil War collectors are the two specific items listed below. An important feature of these publications is that the individual lots have been "split up by collecting area, re-sorted by catalog number and will include the prices realized." These books can be purchased as stand-alone items and will enhance the library of any collector of this material.

[Confederate States - General Issues, Postal History, Patriotic Covers \(112 Pages\)](#)

[Confederate States - Postmaster Provisionals \(236 Pages\)](#)

Take advantage of this opportunity to obtain this valuable and collectible resource while it remains available. **It is important that you reserve your copy before March 31, 2025 to avoid missing out.** This is a subscription-only offer. All purchasing details can be found using the links above.
